

June 21 - 25, 2027 | Corvallis, Oregon

The Largest International Manufacturing Research Conference in the World

Oregon State University will host the 2027 International Manufacturing Research Conference in Corvallis, Oregon.

SME NAMRC 55

ASME MSEC 2027

JSME LEM&P 2027

Oregon State University's School of Mechanical, Industrial, and Manufacturing Engineering and College of Engineering will host the 2027 International Advanced Manufacturing Conference in Corvallis, Oregon. The conference jointly convenes NAMRC55 (SME/NAMRI), MSEC 2027 (ASME), and LEM&P 2027 (JSME) — bringing together the premier manufacturing research communities of North America, Europe, and the Asia-Pacific region for five days of innovation, collaboration, and discovery.

This is the largest international advanced manufacturing research event in the world, attracting over 700 leading researchers, engineers, graduate students, and industry professionals from across the globe. Topics span manufacturing systems and processes, cyber-physical systems, materials processing, additive manufacturing, robotics and automation, and smart and sustainable manufacturing.

Industry sponsors can build brand recognition among top manufacturing researchers and future engineers, form partnerships with academia and labs, and demonstrate commitment to American manufacturing. They gain access to a targeted international audience over five days of 400+ presentations, workshops, keynotes, panels, forums, and exclusive tours.

DIAMOND**\$25,000**
